

# RISK ASSESSMENT MANAGER

This helpful tool forms part of our Supply Chain Management module and offers you full control over your risk levels. The Risk Assessment Manager allows you to record risk assessments and report on results.

## FEATURES INCLUDE:

- ✓ Create fully customisable risk assessment templates with a diverse range of field types within our easy-to-use form builder.
- ✓ Build your templates by setting up customisable pre-set fields for consistently used options.
- ✓ Add scoring criteria to the risk assessment along with scored answers to questions to create low/medium/high risk categories for suppliers.
- ✓ Set review periods for updating the risk assessments to maintain an awareness of the current risk level of your suppliers.
- ✓ Record new risk assessments, share them with suppliers and request more information on their response.
- ✓ View colour coded statuses of risk assessment results according to their level of risk.
- ✓ View individual risk assessments and export them to PDF.
- ✓ Full transparency and accountability of edits made to the risk assessment.
- ✓ Create analysis and snapshot reports on risk assessments to analyse their responses with charts and tables that can be exported to PDF.
- ✓ Create chart widgets from your reports which can be used in a customisable dashboard and share them with other company users.

Our Supply Chain Management module with each of its tools interconnects and integrates seamlessly with our Quality Management and Trading and Planning modules and are available on the Foods Connected single pane of glass platform.
